PROFESSIONAL SUMMARY

Experienced **Senior Software Developer** with over 10 years in designing and delivering scalable, user-focused web applications. Proven track record in building modular, maintainable architectures, troubleshooting complex integration issues, and ensuring seamless full-stack functionality. Recognized for producing performance-optimized, accessible solutions and for mentoring teams to deliver high-quality results aligned with business goals.

CORE COMPETENCIES

- React.js, Mobx, Redux
- JavaScript (ES6+), Typescript
- Node.js, MongoDB, REST API
- HTML5, CSS3, Bootstrap, Responsive UI Design
- ADA Compliance, JEST
- Git, Bitbucket, Jenkins, Jira
- Micro Frontends

PROFESSIONAL EXPERIENCE

Development Lead – Infosys Equinox

Aug 2020 – Jan'12 2026

- Lead and participate in agile activities such as sprint planning, daily stand-up meetings, and retrospective sessions to ensure effective sprint execution.
- Directed a team of **8 frontend developers**, delivering multiple e-commerce modules (Checkout, Product Catalog, Order management, Payment integration) with efficient code reviews and guidance to the team.
- **Designed and implemented reusable React component libraries**, accelerating development cycles and ensuring consistency across enterprise applications.
- **Specialized in building secure, user-centric E-commerce applications**, ensuring seamless shopping experiences through optimized frontend architectures and robust backend integrations.

- **Championed performance optimization initiatives**, improving application speed, enhancing Core Web Vitals, and delivering a smoother user experience.

Senior Software Engineer / Software Engineer - Skava Systems

Jul 2015 – Aug 2020

- **Engineered responsive e-commerce user interfaces** for leading brands including *Keurig, Toms, Kraft, LLBean, and Kohl's*, enhancing customer experience and brand consistency.
 - **Integrated RESTful APIs with client-side applications**, ensuring seamless JSON data handling and reliable data flow across platforms.
 - **Managed version control and code repositories** using Git and Bitbucket, while collaborating closely with full-stack teams to deliver end-to-end solutions in Agile environments.
-

LEADERSHIP & TECHNICAL EXPERTISE

- **Extensive experience in the E-commerce domain**, delivering scalable and high-performance modules such as Checkout, Product Catalog, Order Management, and Payment Integration.
 - **Led development of enterprise-grade E-commerce platforms**, driving consistency, performance, and accessibility across complex, data-driven systems.
 - **Proven ability to translate business requirements into technical solutions** within the E-commerce space, enhancing customer engagement and conversion rates.
 - **Directed cross-functional teams to deliver mission-critical E-commerce features**, ensuring reliability, scalability, and compliance with industry standards.
 - Skilled in **state management, component architecture, and performance optimization**, ensuring maintainable and efficient solutions.
 - Strong background in **REST API integration, authentication/authorization flows, and secure application development**.
 - Experienced in **Agile/SCRUM methodologies**, collaborating closely with product, design, and backend teams to ship end-to-end solutions.
 - **Drove architectural decisions and performance improvements**, building scalable, maintainable solutions.
-

EDUCATION

- MCA – Sri Ramakrishna College of Engineering, Coimbatore (CGPA: 8.8)
- B.Sc Computer Science – N.K.R Arts & Science College, Namakkal (CGPA: 7.7)
