PROFESSIONAL SUMMARY

Senior Frontend Developer with 10+ years building scalable, high-performance, accessible web applications, primarily in React.js and modern JavaScript/TypeScript. Deep expertise in e-commerce platforms (checkout, catalog, order management, payments) for major retail brands. Skilled at component architecture, state management, and Core Web Vitals optimization, with a track record of leading and mentoring frontend teams to deliver production-grade software.

CORE SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Redux, MobX, HTML5, CSS3, Bootstrap

Architecture: Micro Frontends, Reusable Component Libraries, Responsive & Accessible (ADA-Compliant) UI Design

Backend & APIs: Node.js, MongoDB, REST API Integration

Testing & Tooling: Jest, Git, Bitbucket, Jenkins, Jira

Practices: Agile/Scrum, Code Reviews, Performance Optimization, Team Mentoring

PROFESSIONAL EXPERIENCE

Development Lead — Frontend — Infosys Equinox

Aug 2020 – Jan 2026

- Led a team of 8 frontend developers delivering core e-commerce modules — Checkout, Product Catalog, Order Management, and Payment Integration — for enterprise retail clients.
- Designed and built reusable React component libraries adopted across multiple applications, cutting development time on new features and keeping UI consistent enterprise-wide.
- Drove Core Web Vitals and performance optimization initiatives, improving application load speed and overall user experience.
- Ran sprint planning, stand-ups, and retrospectives, and directed code reviews to keep code quality and delivery timelines on track.
- Partnered with backend and product teams to translate business requirements into secure, scalable frontend architectures.

Senior Software Engineer / Software Engineer — Skava Systems

Jul 2015 – Aug 2020

- Built responsive e-commerce UIs for major retail brands including Keurig, Toms, Kraft, L.L.Bean, and Kohl's, improving customer experience and brand consistency.
- Integrated RESTful APIs with client-side applications, ensuring reliable JSON data handling across platforms.
- Managed version control and code repositories with Git and Bitbucket while collaborating with full-stack teams in Agile sprints.

EDUCATION

MCA — Sri Ramakrishna College of Engineering, Coimbatore (CGPA: 8.8)

B.Sc Computer Science — N.K.R Arts & Science College, Namakkal (CGPA: 7.7)
